---

Hi All.

Despite the weather, I am still planning on hosting the meeting today at 811 SW 6<sup>th</sup> Ave, 10<sup>th</sup> floor, from 1pm-4pm. Would love to see as many faces in person as possible, but a call-in line is available (Non- [REDACTED] with participant code Non- [REDACTED]). Attached is the most recent agenda incorporating a few revisions. I believe the bullets cover the items Chevron submitted for discussion. Look forward to seeing you all. Thanks.

Hello Alex. Can you confirm that we are still a go for the meeting today? Just wondering due to the weather forecast and potential ice.

Hello All.

Please see meeting details below. As promised, attached is a draft agenda. Let me know if you have suggestions for other discussion items.

<<Wilbridge Cove Agenda.docx>>

I hope to see all of you in person, but understand that some out-of-towners will need to call in. As such, I have arranged a conference line at Non- with participant code Non- .

Thanks and see/hear you then.

**Subject:** Willbridge dredging meeting set

Hello Again.

Thanks for all your responses. I have heard back from everyone (except EPA) and it looks like all can make Nov 23<sup>rd</sup> from 1pm-4pm. Please reserve this on your calendars and we can break early in the event we don't need the full three hours. Since this coincides with our regular coordination meeting, hopefully Jonathan (or maybe Chip in his stead) can make this as well.

The meeting location will be in Portland at DEQ HQ (811 SW 6<sup>th</sup> Ave at Pioneer Courthouse Sq, entrance next to Washington Mutual Bank). Take the elevator to the 10<sup>th</sup> floor and sign in with the receptionist, who will point you to room EQC-A. Street or pay garage parking (closest is SW 10<sup>th</sup> and Yamhill) are available and all MAX lines converge at the Square.

I will provide a call in number for those who can't make it in person and an agenda closer to the day. Meanwhile, please feel free to let me know if you have agenda input.

Please forward this to Terry Lauck as I don't have email contact info for this participant.

Thanks and see you then.

**Subject:**

All:

As we have discussed, I am sending out this Doodle poll (<http://www.doodle.com/kskc4m9d2qz5ss62>) with potential dates for a meeting of all the regulators and applicants to begin a discussion about potential benefits of combining some elements of the proposed dredging in Willbridge Cove.

I want to stress that nothing has been decided yet as to how permitting decisions will play out here, but that we have identified several project overlaps that need clarification for a workable path forward. As each project is considering revisions based on SEF results or other info needs, permit timing has synched up. It seems prudent to have a group discussion about how we can reduce environmental disturbance and regulatory review workload and potentially realize cost savings and timing benefits for the applicants, as well.

Thank you for your willingness to participate in this initial discussion. Please let me know your availability by responding in the Doodle poll.
